PERSONAL PROFILE

I am a web developer with vast expertise in project management. I have an attitude of determination to finding solutions to challenges with the goal of making valuable contributions in teamwork and a commitment to learning.

EXPERIENCE

Web Developer

Rebac Digital | June 2018 - Present

- Built a banking website which included an automated real-time loan calculator.
- Developed a telemedicine website where customers can sign-up for different plans and speak to a doctor directly.
- Created an online restaurant, where customers can place orders from the menu.
- Collaborated with other designers
- Translated high-level designs to responsive websites

Web Developer / Project Manager

NGCareers | Oct 2019 - Feb 2021

- Worked alone with the development team in building the front-end of Lentora (an E-learning platform)
- Led the development efforts of the reengineered NgCareers platform and Lentora.
- Managed stakeholder expectations for the products while ensuring the product features were clear and well defined.

Project Manager / Front-end Web Developer

Ash Nelson Partners | May 2017 - Mar 2018

- Worked with my team to develop a multi-tenancy product worth over \$2 Million.
- Planned and coordinated project schedules, goals, and milestones for all developers (using teamwork).
- Presented and sent out reports on progress of the project to all stakeholders involved
